DAY 4 | THURSDAY, OCT 8, 2026

Titles and Motion.

Text, transitions, speed and keyframes that look professional.

10:00 a.m. - 12:00 p.m. | Multan Office

Instructor Muhammad Farukh F.

WELCOME BACK

Yesterday in 30 seconds.

1. Dialogue, music and effects: three layers of a mix
2. Meters and decibels: voice peaks at -12 to -6 dB
3. Essential Sound: tag clips as Dialogue or Music
4. Enhance Speech for cleaner voice
5. Fades and auto ducking for music

Play your mixed voiceover for a neighbor.

TODAY'S AGENDA

Two hours, eight steps.

10:00	Recap and questions	10 min
10:10	Design basics for titles	15 min
10:25	Essential Graphics: titles and lower thirds	25 min
10:50	Short break	10 min
11:00	Transitions	15 min
11:15	Speed changes and keyframes	20 min
11:35	Hands on: polish your cut	20 min
11:55	Recap and homework	5 min

THE MINDSET

Motion supports the story.

1

Be clear

Text must be readable in two seconds.

2

Be consistent

Same fonts, colors and timing throughout.

3

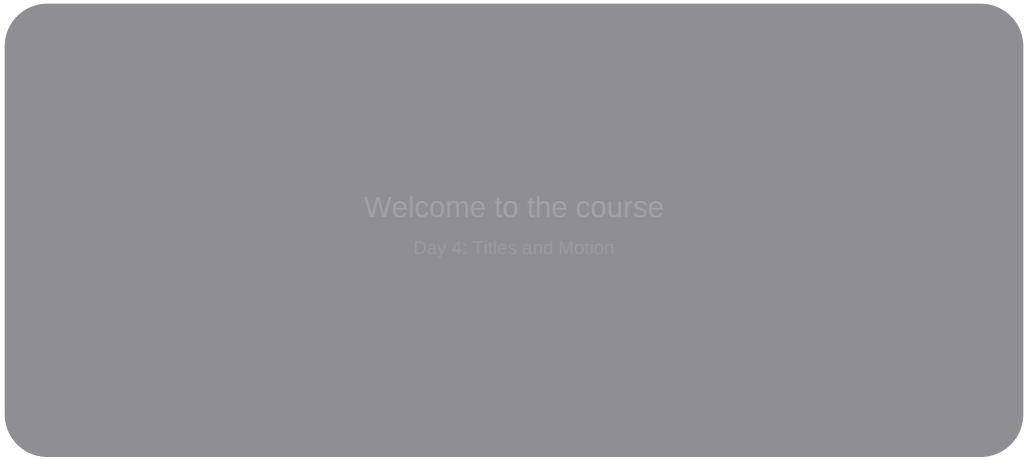
Be purposeful

Every effect needs a reason. If not, skip it.

TYPOGRAPHY

Clear beats fancy.

Hard to read



Tiny, low contrast, too much detail.

Clear and bold

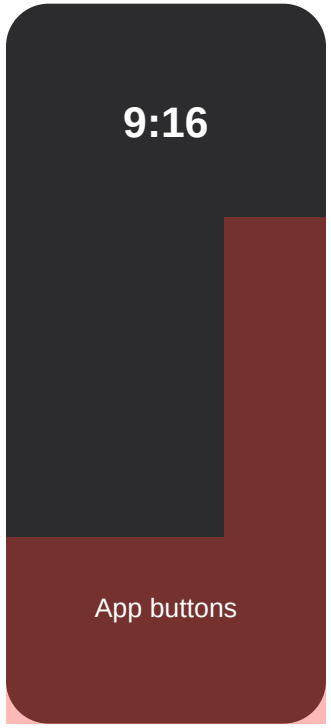
Welcome to the course

Day 4: Titles and Motion

Large, high contrast, short text.

LAYOUT

Keep text in the safe zone.



Keep text out of the bottom and right edge on Reels and Shorts.

ESSENTIAL GRAPHICS

Your title toolbox.

- Open it: Window > Essential Graphics
- Browse tab: ready made motion graphics templates
- Edit tab: change text, font, color, shadow and position
- Save your own style for reuse

Two tabs

Browse

Templates you can customize

Edit

Full control of every layer

TITLES

Create a title in five steps.

1

Type tool

Press T and click the Program Monitor

>

2

Type

Write short, clear text

>

3

Style

Edit tab: font, size, fill, shadow

>

4

Align

Center or align to the safe area

>

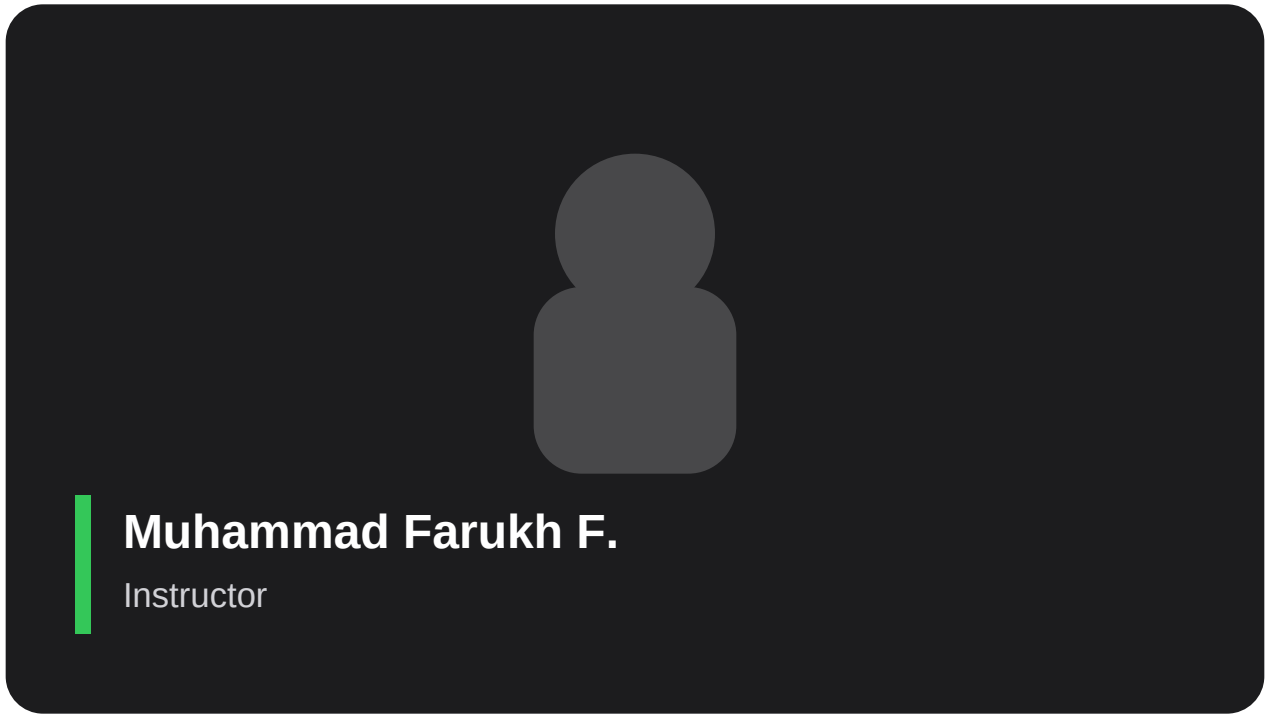
5

Trim

Set duration on V2, about 3 to 5 sec

LOWER THIRDS

Name and role on screen.



- Two lines at most: name, role
- Left aligned, in the lower third
- Show 3 to 5 seconds
- Same style for every speaker

TRANSITIONS

Use them sparingly.

Cross Dissolve

Soft blend. Time passing or mood.

Dip to Black

Ends a scene or the video.

Push and Slide

Energetic, for quick pacing.

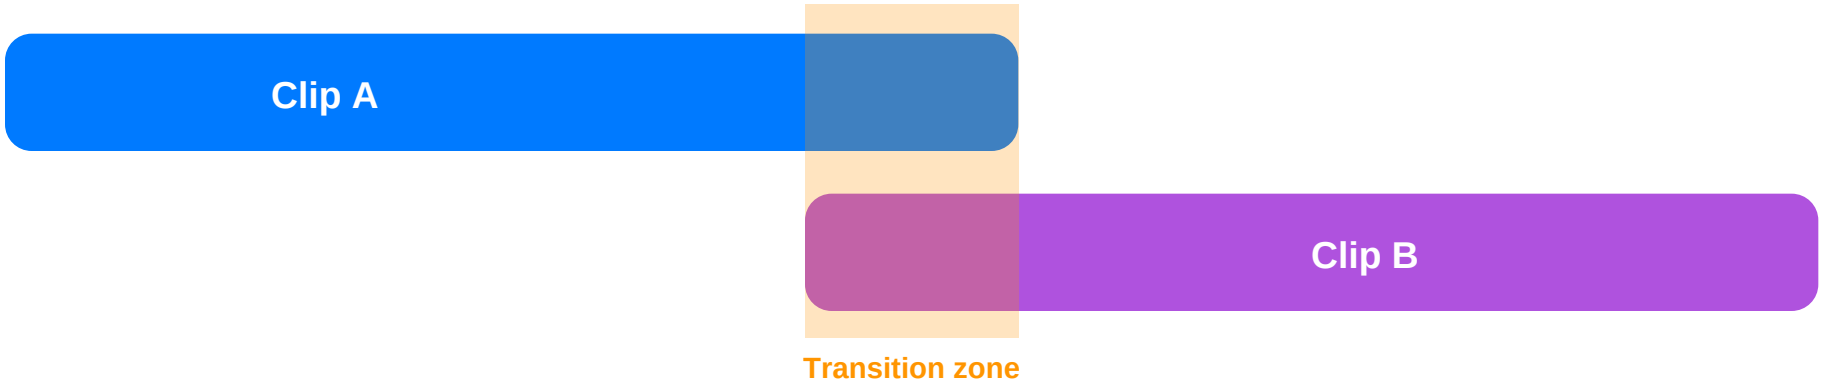
Zoom

Stylish. Use only with purpose.

Most edits should be plain cuts. A transition needs a reason.

TRANSITIONS

Applying a transition.



- Effects panel > Video Transitions, drag onto the cut
- Ctrl/Cmd + D adds the default transition
- Double click it to change the duration
- Both clips need extra footage (handles) at the cut

SPEED

Change the pace.

Ctrl/Cmd + R

Speed / Duration

Type an exact speed. Reverse if needed.

R

Rate Stretch tool

Drag a clip edge to fit a gap.

Time Remapping

Speed ramps

Change speed smoothly inside one clip.

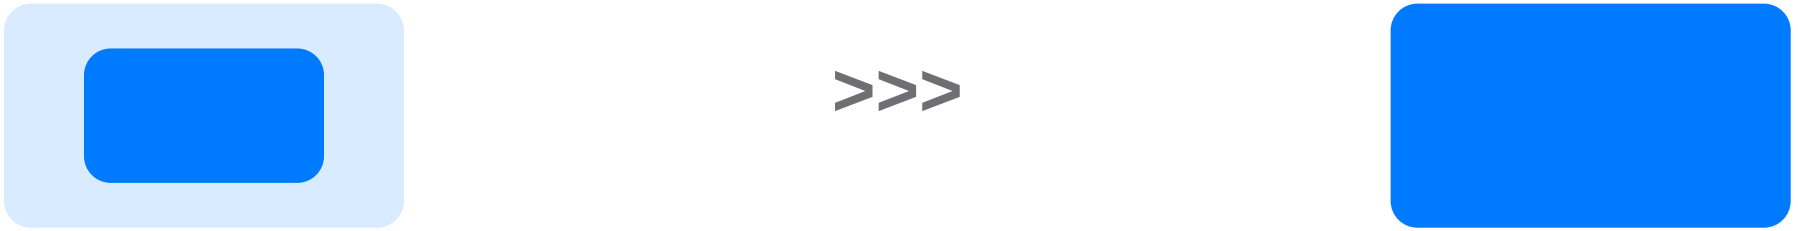
Slow motion looks best from footage shot at a higher frame rate.

KEYFRAMES

Motion in two points.

Keyframe 1

Keyframe 2



Scale 60%

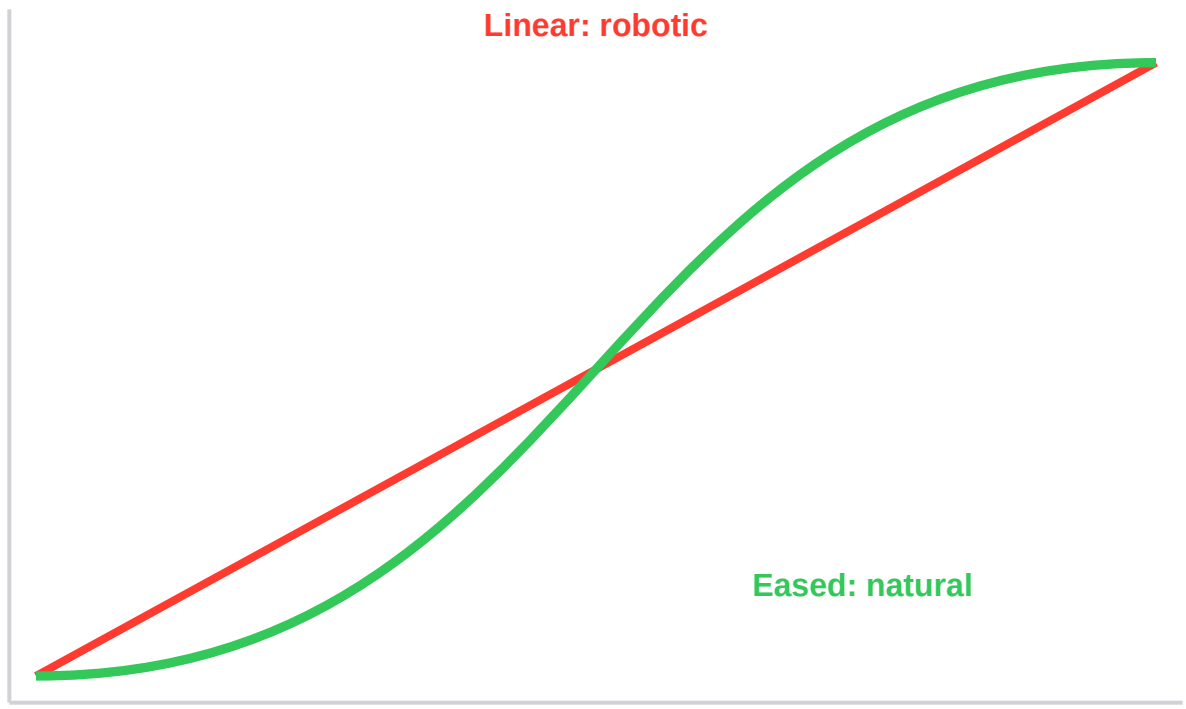
>>>

Scale 100%

Premiere fills in the movement between the two points.

SMOOTH MOTION

Ease in, ease out.



- Right click a keyframe
- Choose Ease In and Ease Out
- Start slow, move, settle softly
- Use small moves: 100% to 110%

SHORTCUTS

Quick keys for today.

T	Type tool
R	Rate Stretch
Ctrl/Cmd + D	Default transition
Ctrl/Cmd + R	Speed / Duration
Alt/Option + drag	Duplicate a clip
C	Razor tool
Space	Play / pause
Ctrl/Cmd + S	Save

HANDS ON

Polish your cut.

- [ ] Add an opening title card with the Type tool
- [ ] Add a lower third with the speaker name
- [ ] Use cross dissolves between B-roll shots
- [ ] Create one speed change on a B-roll clip
- [ ] Add a slow zoom with keyframes and easing
- [ ] Save as v05

QUICK CHECK

Five questions.

1. Which tool creates text in the Program Monitor?
2. What is a lower third?
3. Which shortcut adds the default transition?
4. What do you need at the cut for a transition to work?
5. Why use easing on keyframes?

RECAP

What you learned today.

Covered

- Title design and safe zones
- Essential Graphics and lower thirds
- Transitions and speed changes
- Keyframes and easing

Homework

- Add titles and a lower third to your own edit
- Try one speed ramp
- Bring your diary tomorrow

Tomorrow

- Export and Mini Project
- Export presets and platform specs
- 60 second edit and quiz
