- Day 1: projects, interface, importing, bins, proxies
- Day 2: razor, ripple, rolling, slip, slide
- Day 3: levels, Essential Sound, Enhance Speech, ducking
- Day 4: titles, lower thirds, transitions, speed, keyframes
- Today: export and put it all together

TODAY'S AGENDA

Two hours, eight steps.

10:00	Recap and questions	10 min
10:10	Export basics: formats and codecs	15 min
10:25	Platform specs and presets	15 min
10:40	Short break	10 min
10:50	Mini project: 60 second edit	40 min
11:30	Export your project	10 min
11:40	Weekly MCQ test	15 min
11:55	Recap and weekend task	5 min

BEFORE YOU EXPORT

Check it like a client.

- [ ] Play the whole sequence without stopping
- [ ] Voice peaks stay between -12 and -6 dB
- [ ] Titles are spelled correctly and inside the safe zone
- [ ] No black frames or gaps at the start or end
- [ ] Save the project, then export

EXPORT

The export window.

Format	**H.264 (MP4)**
Preset	**Match Source - High bitrate**
Range	**Entire Sequence**
Resolution	**1920 x 1080**
Frame rate	**Same as sequence**
Audio	**AAC**

- Open: File > Export > Media
- Shortcut: Ctrl/Cmd + M
- Name the file clearly
- Click Export, or Queue for Media Encoder

SPECS

Pick the right size.

Platform	Size	Ratio
YouTube	1920 x 1080	16:9
Reels, Shorts, TikTok	1080 x 1920	9:16
Facebook and Instagram feed	1080 x 1350	4:5
Square posts	1080 x 1080	1:1

For all of them: MP4 with H.264 is the safe choice for sharing.

CODECS

Share or archive?

- MP4 with H.264: small files, easy to share
- ProRes in MOV: high quality master copy
- Keep a master export for later changes
- Bitrate: higher means better quality and bigger files

Rule of thumb

Client delivery: H.264 MP4

Master copy: ProRes, if space allows

Always keep the project file and the original footage.

DELIVERY

Name and organize exports.

Clear names

ProjectName_Platform_v01.mp4

One folder

Keep exports in 05_Exports

Version up

Never overwrite: v01, v02, v03

Backup

Copy project and exports to a second drive

MINI PROJECT

Your 60 second edit.

- [ ] Rough cut with at least three B-roll shots
- [ ] Opening title and a lower third
- [ ] Voiceover or interview, cleaned and leveled
- [ ] Music under the voice with ducking
- [ ] One transition, one speed change, one keyframe move
- [ ] Export 1920 x 1080 MP4 and save as v06

MARKING

How it will be judged.

25 Story and pacing

Clear order, no dead air

25 Audio

Clean voice, music under it

25 Titles and motion

Readable, consistent, purposeful

25 Export and delivery

Right specs, clear file name

WEEKLY TEST

MCQ test rules.

- 10 questions, 15 minutes, one mark each
- Three versions: A, B and C. Your paper is assigned
- Phones away. No talking or sharing
- Choose one answer and tick or fill its circle
- Hand in your paper when time is up

QUICK CHECK

Ready to submit?

- [ ] Does the first 3 seconds grab attention?
- [ ] Can every title be read on a phone?
- [ ] Is the music ever louder than the voice?
- [ ] Did I export in the right size and format?
- [ ] Is my file named and saved in 05_Exports?
